COVID-19 Banner Infant Chart

Audience: *Inpatient OB and NICU Nurses and Providers*

A banner will display in the infant's chart when the mother has the **COVID-19 Confirmed** or the **COVID-19 Rule Out** infection status documented in their chart. The banner contains a link that will open a CDC document.

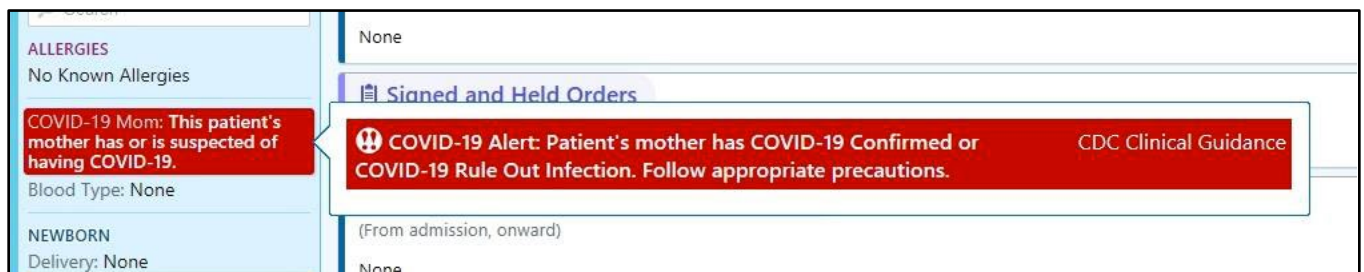

View Banner from Greaseboard while in Newborn or Delivery: Baby Chart Report

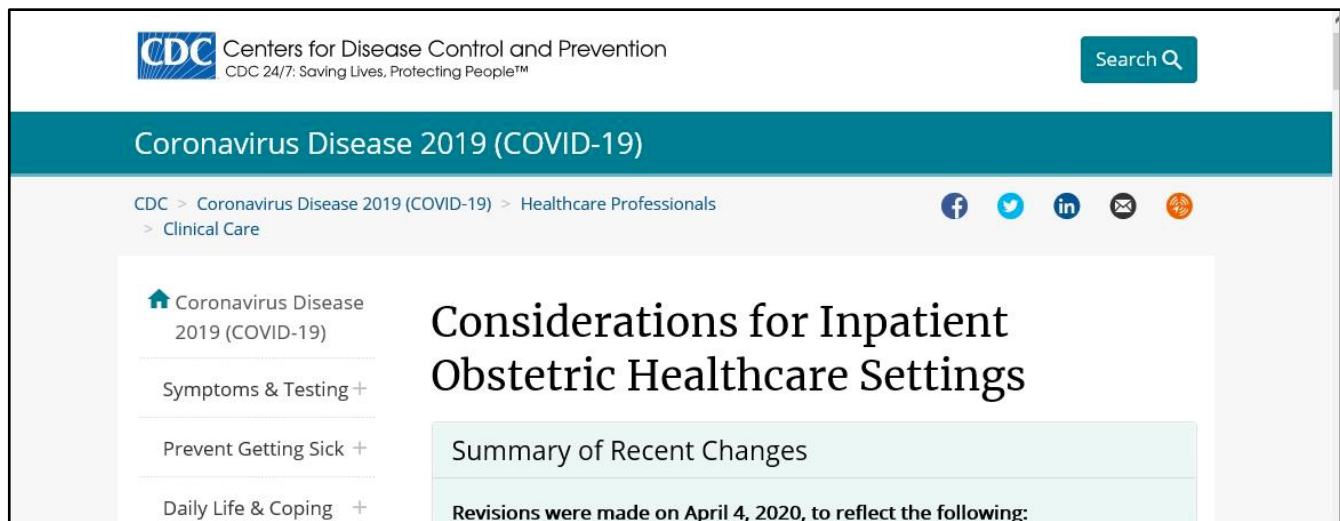

NOTE: The banners are also accessible from the **Summary** tab within the patient chart on these reports and the banners contain a link to the CDC document.

View Banner from the Storyboard Within the Patient Care

Once the chart is open, the banner will display in the Storyboard with a hover bubble that contains the link to the CDC document.

Result: The CDC link will open to this document.

Additional Question Added to the NICU Admission Navigator

For NICU infants that are not born in our system. An additional question has been added to the **Admission Navigator** → **Delivery History** section. Answers of **Confirmed** or **Suspected (Rule Out)** will trigger the banner in the chart.
