COVID-19 Dot Phrase

Audience: Inpatient and Outpatient Providers

This new smart tool is available to all end-users and can be accessed anywhere a note is written.

Let's Take a Look

After typing .(dot)COVID, a list will appear. After choosing any of the COVID-19 Resource Links it will pull in a hyperlink to a new CDC document.

The screenshot shows the 'My Note' interface in Epic. At the top, the title 'My Note' is displayed. Below it are several input fields: 'Type:' with a red exclamation mark icon, 'Service:' with the text 'Wound/Ostomy.', 'Date of Service:' with the date '3/26/2020' and a calendar icon, and a time field with '08:13 AM' and a clock icon. There is a checkbox labeled 'Cosign Required' which is currently unchecked. Below these fields is a 'Summary:' field with a yellow warning triangle icon. A rich text editor toolbar is visible, containing icons for star, bold, link, undo, redo, help, insert smart text, and navigation arrows. The main text area of the note contains a blue hyperlink: [Link to CDC Discharge Guidelines](#).
