Cost of Attendance Rationale

St. John's College is a 100% commuter campus. All cost-of-living components are based on a median rent, utility, and food cost for the Springfield, IL area. The monthly cost has been multiplied by the 9-month standard enrolment for an academic year. Additional cost of attendance budgets for summer are only calculated for a 3-month term once a student enrolls in summer term courses. The summer term is a prorated amount based on the same cost of living statistics. The cost-of-living information is collected each March to ensure adequate allotments for expenses. Please see notes below for the source of cost-of-living reporting.

Additional Notes on Cost of Attendance Rationale

1. Students that have a financial aid package meeting the total cost of attendance, that need additional funding, may appeal for a computer and/or cost of living adjustment to receive additional financial aid. Documentation of any additional increases to the cost of attendance is required at time of appeal. Computer adjustments cannot exceed a one-time \$1500.00 adjustment.
2. Per person median cost of living information can be found at <https://livingcost.org/cost/united-states/il/springfield>
3. RN-BSN Students work full time so cost of living is 50% of full allotment.
4. Graduate students work reduced hours as an RN, so they receive full cost of living allotment.

Professional Judgment (PJ) Process

If a student needs access to additional resources not included in their cost of attendance, they can submit a written request by email to Tim Marten, Financial Aid Administrator to perform a budget review. The request can be emailed to timothy.marten@sjcs.edu.
