CEO luncheon

Doctor for a Day with personalized lab coat (post COVID)

For more information on how you can join our annual Circle of Giving, please call (217)757-6555 or email us at [sjsfoundation@hshs.org](mailto:sjsfoundation@hshs.org).

YOU'RE INVITED TO JOIN  
**CIRCLE of GIVING**

# CIRCLE *of* GIVING

Our supporters make a difference every day by making contributions to the “Greatest Need” fund.

Your gift of \$1,000 or more will help provide:

- Immediate and critical needs to battle COVID-19
- Life-saving intubation tools for the emergency department
- Nursing scholarships
- Mind, body and wellness classes
- Comfort care items for home health and hospice patients
- Wheelchairs
- Vein finders
- Meals for families in the pediatrics unit
- Specialized oncology equipment
- Charging kiosks for electronic devices
- Heart monitors for cardiac patients
- Much-needed prescriptions for patients
- Diapers and formula for NICU babies

Your renewable gift is an investment in the future of healthcare. An annual gift of \$1,000 or more in a fiscal year (July 1 – June 30) qualifies you for special recognition and opportunities to play a larger role in our mission.

## The Impact of Your Annual Gift

### Our Patients

You help provide high quality, compassionate care to our patients.

### Our Students

You help ensure a strong and diverse nursing workforce by supporting academic excellence.

### Our Hospital

You invest in the resources needed most that make the widest possible impact for our community.

### Our Community

You support healthy communities in ways that extend far beyond the walls of our hospital through community educational programs, charity care and other services.

## Baby William

Generous contributions to HSHS St. John’s Foundation purchased three video laryngoscopes and a variety of important instruments for the emergency department. A video laryngoscope is a digital tool that uses stainless steel blades in a variety of sizes to provide a safe, close-up view of the larynx and throat on patients of every age. The device provides real-time video recording and still images for optimal viewing.

William and Katheryn brought their five-week-old son, William, to HSHS St. John’s Children’s Hospital from White Hall, IL. Baby William was not eating, constipated, dehydrated and his stomach was distended. Dr. Sandra Ettema, an ear, nose and throat specialist and assistant professor of the department of surgery at SIU School of Medicine, used the video laryngoscope and discovered a cyst in William’s throat was

blocking 80% of his airway. The next day William had surgery to remove the cyst. He was almost immediately feeling better and hungry!

Today, William is a healthy, happy little boy. He loves being outdoors, spending time with his two older brothers and “working” in his dad’s shop.

“Supporting HSHS St. John’s Foundation is an investment in our community and its future. We have been active supporters for the past several years, since Liz delivered our daughter Evelyn at the Carol Jo Vecchie Women and Infants Center. After receiving outstanding medical care and taking part in classes, groups and services provided to new and expecting parents, we felt compelled to become supporters of the foundation. We want to ensure every mother, father, baby and child in our community has access to high-quality medical care, the best technology and a network of support.”

- Brian and Liz Vogt

**Thanks to DONORS LIKE YOU we can provide new equipment throughout the hospital to benefit patients, visitors and colleagues.**

HSHS St. John’s Foundation relies on a strong tradition of giving to help provide resources that impact the health of our communities in meaningful, measurable ways.
